

### Digital Instruction Manual

To ensure correct and safe usage please review this product instruction manual before use. Should you require any further assistance, simply contact us directly at [www.toolzilla.co.uk](http://www.toolzilla.co.uk).

Firstly, release the loading magazine by unclipping the loading magazine clip, as shown in the image below. Secondly, pull the loading mechanism open. Thirdly, position the staples within the channel ensuring legs or nails are pointing down. Finally, push the magazine closed and test on a disposable surface or on an inconspicuous area before applying to task.

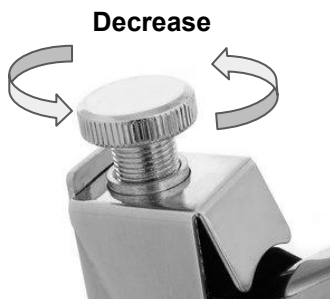

---

Please note: Narrow Crown and U staples should enter the loading magazine centrally, while brad nails should be loaded to either the right or left hand side of the loading chamber.

Increase the driving force by turning power adjuster clockwise. Decrease the driving force by turning power adjuster anti-clockwise.

Firstly, position the staple gun vertically. Secondly, applying thumb and figures to the base wings, push down and apart to release the quick jam release function. Finally, remove the staple jam and close before reloading.

The TZ31PRO comes complete with a 600 staple selection pack containing 200 Narrow Crown Staples, 200 Cable Staples, and 200 Brad Nails. Suitable for DIY and office applications, such as carpeting, upholstery, roofing, low voltage wiring, insulation, house-wrap, carpentry, hobby and craft, and more! Replacement staples can be purchased from any reputable hardware store or Amazon.

**COMPATIBILITY:**

Narrow Crown Staples 4-14MM (Arrow T50, Rapid 140)

Round Crown Staples 10-12MM (Arrow T18, Rapid 28)

Brad Nails 10-14MM (Arrow T50 BN, ESCO 300)

Hand tool usage can be dangerous. Always wear safety goggles and protective gloves during use. Keep out of reach of children. Check live wires are not present during use. Do not overreach when using staple gun. Only use the staple sizes which are specified on the product packaging and product description. Follow all health and safety regulations at all times during use. Select the appropriate size and type of tool to suit the application. Please note that the included staples are made of a mix of metals and are not 100% steel. Open packaging with care. Do not attempt to dismantle and reassemble TOOLZILLA products. Replacement parts are not available. TOOLZILLA hand tools have been designed for professional use in standard DIY applications.

Since day one, our goal at TOOLZILLA® has been to build a direct-to-consumer tool brand that could deliver fiercely strong products at affordable prices. However, at heart, we're far more, TOOLZILLA® is all about the lifestyle, passions and dreams that our products support.

Our products and aftercare service are designed to maximise your satisfaction. Whether it's having a high-quality set of Allen Keys on hand to adjust your mountain bike while out riding, or having a reliable staple gun for your latest upcycling project, we have the tools you need to support your passions.

The logo features the word "TOOLZILLA" in a large, bold, white sans-serif font with a registered trademark symbol. Below it, the words "FIERCELY STRONG" are written in a smaller, bold, green sans-serif font. The background is a dark grey/black field with a subtle pattern of light grey hexagons.
