

DIGITAL INSTRUCTION MANUAL

Thank you for choosing the TZ1KPRO USB Rechargeable LED Headlamp. To ensure correct and safe usage, please read this product manual before use. Should you require any further assistance, please contact us and we will be delighted to help.

BATTERY FEATURES:

- Up To 30 Hours Runtime (4-5 Hours Runtime With Full Brightness).
- Built-in 1000mAh Li-Polymer Battery.
- Rapid USB Charging Technology.
- USB Cable Included.

LIGHTING FEATURES:

- Five Lighting Modes: High (white) - Low (white) - Strobe (white) - High (red) - Strobe (red).
- Fitted with CREE XPE LED Producing a 500 Lumen Output and up to a 200m Range.
- 60-Degree Adjustable Tilt for Optimal Focus and Visibility.

OTHER FEATURES:

- Robust, Lightweight, and Compact Shock Resistant Construction.
- Quick-Adjust, Anti-Slip Strap for All Head and Helmet Sizes.
- Dual Button Mode Selection Control.
- Weather Resistant (IP65 Certified).

How to charge: plug the USB cable into a power source such as a wall adaptor, computer, or car USB port. Lift the rubber cover to expose the micro USB port on the bottom side of the headlamp. Insert the micro USB plug into the micro USB port. Recharge only with a USB cable. Ensure that the output voltage does not exceed 5.5V. Only use CE/UL approved chargers. Do not leave the headlamp unattended during charging. Ensure rubber charging cover is closed when charging is completed to maximise water protection.

Battery life: the battery life is dependant on the lighting setting used. If the white light and red lights are set to full brightness, the battery will last 4-5 hours. If the red lights are on alone, the battery will last up to 30 hours.

Charging times: the battery takes 4-6 hours to become fully charged from zero charge.

To adjust the head strap to fit your head or helmet, slide the buckles on the side of the head strap. It may be necessary to slide the headlamp on the head strap to center the light once the head strap has been adjusted to the desired size.

**SHRINK****EXPAND**

The TZ1KPRO has 5 lighting modes: High (white) - Low (white) - Strobe (white) - High (red) - Strobe (red). The white light and red lights work independently from each other, enabling a range of lighting combinations to suit your activity. To change the lighting modes, press the left and right green buttons located on the top of the headlamp casing.

- Avoid any prolonged contact of grease on the lens, casing, or head strap. In case of contact with grease, wipe with a dry, non-abrasive cloth and rinse with warm water.
- The head strap can be washed in the washing machine on a delicate fabric setting, without a spin cycle. Please ensure the headlamp has been removed from the head strap prior to washing.
- Do not submerge the headlamp in water when cleaning.
- Gently wipe the lens with a soft, non-abrasive cloth.
- Please do not dismantle the headlamp.

- When storing the headlamp for long periods of time, please recharge the battery every six months.
- The headlamp should be stored in a cool, dry place (optimal storage temperature is between 20C and 25C).
- Store out of sight and reach of children.

Do not swallow small parts. Keep away from children. The product should only be used as a lamp. Only use the product in a temperature range between -20 and 60°C and avoid high humidity and moisture. Do not expose product to solvents, vapors, vibrations or explosive atmospheres. Do not place headband around your neck. Do not use the product as a tool. Risk of heat build-up if product is covered during use. The LEDs of the product correspond to the risk group 2 (DIN EN 62471-1). Do not look directly into the beam of light due to risk of blinding. Do not short circuit the contacts of the product. Products with magnets are a risk for persons with pacemakers. Do not modify product. Recharge batteries with the charger provided only. Dispose of batteries in accordance to the national guidelines. Follow all health and safety regulations at all times during use. Open packaging with care. Replacement parts are not available. Product contains Lithium Polymer battery. Lithium Polymer battery packs may get hot, explode or ignite and cause serious injury if exposed to abuse conditions. Abuse conditions include, but are not limited to, short circuiting, carrying next to sharp or metal objects, striking or piercing, exposing to water or moisture, placing near fire or in high temperature locations, dismantling or modifying, and unattended charging. Store product in a cool and dry place. Do not throw battery into fire. Product manufactured in China.

Since day one, our goal at TOOLZILLA® has been to build a direct-to-consumer tools and accessories brand that could deliver fiercely strong products at affordable prices. However, at heart, we're far more, TOOLZILLA® is all about the lifestyle, passions and dreams that our products support.

Our products and aftercare service are designed to maximise your satisfaction. Whether it's having a high-quality set of Allen Keys on hand to adjust your mountain bike while out riding, or having a reliable staple gun for your latest upcycling project, we have the tools and accessories you need to support your passions.

Since launching in 2015, TOOLZILLA® has been based in Yeovil, UK.
